

Name: _____

Step 3: Design

<p>Experiment: Difficulty 4</p> <p>Experimental Process</p> <p>List the steps you will follow to conduct your experiment with sufficient detail so that, with your abstract, your experiment could be repeated to verify your results.</p> <p>Draw a picture of the apparatus if you need one.</p>	<p>Engineering: Difficulty 5</p> <p>Engineering drawing</p> <p>Attach an engineering drawing, a blue print, of the device you decided to build. Include annotations indicating materials, attachments, wiring diagrams and more. Your picture should be detailed enough that your device could be built from the picture. Use engineering paper if possible.</p>
