Info Tech Assignment 7   **SVG**   Name: _____

Submit: Inspection   Period: ____

Graph

In this assignment, you will graph the results you obtained from the survey you ran during the Wiki project. If your data was lost, propose an alternate set of data to your instructor.

Requirements:

1. **Get checked off** for reading 3wSchool's Basic and Shapes. The site is located in the reading section under 8 web or you can just use this link: http://www.w3schools.com/graphics/svg_intro.asp.
2. Create a bar graph of your survey results:
   a. **Title**
   b. X and Y axis with **labels**, horizontal and vertical text.
3. Create a decorative **animation**. More points will be given if your animation contains **rotating** elements.
4. Your graph and animation must be in a **DIV** that is sized and movable.

Grading:

You will be graded as a group using the following grading system.

1. Scope: Project size and complexity.
2. Knowledge: All knowledge displayed in any form.
3. Mechanics: Animations work, shapes line up …
4. Impact: How interesting the work is.
